

HAND MADE GOODS

FOR LIFE ON THE ROAD.

WWW.WANDERINGSANDCO.COM

ABOUT.

Inspired by our outdoor lifestyle, we produce meaningful and practical products that are made for adventurous souls.

Whether you're a casual camper or living on the road full time, our products are designed to go where ever you go.

With over 10 years of sewing experience, we love the challenge of custom work and bringing your ideas to life.

HOW IT WORKS.

Step 1 - Choose your style of curtain

Step 2 - Choose your fabric

Step 3 - Measure your windows

Step 4 - Send all the above information through to info@wanderingsandco.com and I will send you a quote

Step 5 - My turn around times may vary depending on current workloads but my usual turn around time is 2 weeks

Step 6 - Once finished, I will send or deliver the curtains to you. Please note we do not install curtains. For more information on ways to install the curtains yourself check our website - www.wanderingsandco.com

FABRICS.

There are 3 types of curtain fabrics you can choose from for curtains:

Block Out - No light will come in, fabric has a plastic backing so isn't very soft but this is the best options for sleeping.

Room Darkening - This will darken the room but not completely block out all light. These fabrics are usually softer to touch, have a nice drape and provide good privacy as you cannot see through them.

Sheer/Linen - If you are not concerned about light or privacy you can of course go for some other lighter weight fabrics such as linen, cotton or a sheer.

Cushions - For cushions I recommend anything thats durable and slightly heavier in weight like a drill, canvas or upholstery fabric.

I buy most of my fabric from Spotlight as they have a great range and price point so I always encourage customers to go and have a look and feel fabrics in person before deciding.

COSTS.

I have priced each curtain by the meter, which is listed on the pages below. This is the cost of the time to make the curtains.

Please note that the cost of the fabric, tabs (to secure curtains to the side), zips (for cushions) and postage or delivery is additional.

Cost break down by curtain style:

Rod Pocket curtain: \$50/pm

Tab Top curtain: \$80/pm

Roll Down curtain: \$50/pm

Track curtain: \$80/pm

Tab Back curtain: \$80/pm

Magnetic curtain: \$100/pm

Cushions: \$50/pm

ROD POCKET CURTAIN.

SWEET AND SIMPLE.

This curtain is simple but effective and features a hem at the top of the curtain where a rod or curtain wire is thread through.

Installation - Works on both a rod or curtain wire

Fabrication - Works best with sheer/lighter fabrics as it bunches more easily but it can also work with heavy weight fabrics too

Cost: \$50 per meter + additional costs

TAB TOP CURTAIN.

CLASSIC STYLE.

This type of curtain features exposed loops (tabs) of fabric that are drawn through a curtain rod or pole at the top. The tab top curtain is a very popular style as it has nice drape and look to it.

Installation - Works best on a rod

Fabrication - Works with both heavy and light weight fabrics

Cost: \$80 per meter + additional costs

ROLL DOWN CURTAIN.

COMFORT AND EASE.

The roll up curtain features one piece of fabric that covers the window and has a loop of fabric with a press stud to secure the curtains around a rod or pole at the top.

Installation - Works best on a rod

Fabrication - Works best with heavy weight fabric but can work with sheer/lighter fabrics too

Cost: \$50 per meter + fabric cost additional

TRACK CURTAIN.

KEEPING IT OLD SCHOOL.

Some vans and buses already have existing curtains on tracks that we are more than happy to work with.

This is a more traditional style that has side tabs with press studs to secure.

Installation - Existing or new track

Fabrication - Works for both heavy (block out) and light weight fabrics

Cost: \$80 per meter + fabric cost additional

TAB BACK CURTAIN.

SLEAK AND STYLISH.

Loops of fabric attached to the back of the curtain create a clean and tailored look. This style looks just as nice from the front and the back.

Installation - Recommended for use on a rod but can be used on curtain wire

Fabrication - Works for both heavy and light weight fabrics

Cost - Roughly \$80 per meter + additional costs

MAGNETIC CURTAIN.

TOTAL PRIVACY.

The magnetic window covers offer complete privacy and blackout of all light. The magnets make these covers easy to use/remove and can be folded and stored away easily.

Installation - These can only be used on windows that have metal surrounds that the magnets can attach too.

Fabrication - We use an insulated fabric for the centre and a rip stop polyester fabric for the outer layers, but any fabrics can be used for the outer layers.

Cost: \$100 per meter + additional costs and magnets

CUSHION COVERS.

COMFORT AND EASE.

Our cushion covers can be made to any size, in a fabric of your choice and feature a concealed zip in the side gusset. The covers are made for easy removal and washing, which is perfect for life on the road. We don't provide cushion inserts but can organise if required.

Fabrication - Anything that's durable and slightly heavier in weight like a drill, canvas or upholstery fabric.

Cost: \$50 per cushion cover based on a 1m x 1m cushion cover + additional costs

GET IT TOUCH.

We understand that each project is different and would love to work with you to help create the perfect soft furnishings for your home on wheels.

We also have a great range of canvas and camping goods.
